REISSUE APPLICATION DECLARATION AND POWER OF ATTORNEYDECLARATION BY THE INVENTOR

As the below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name

I believe I am the original, first, and sole inventor of the subject matter that is described and claimed in United States Patent Number 6,290,600 granted on September 18, 2001 and in the foregoing specification, and for which a reissue patent is sought entitled "Electronic Game With Moving Bonus Symbol", the specification for which is attached hereto.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information, which is material to patentability as defined in 37 C.F.R. section 1.56, and which is material to the examination of this application, namely, information where there is a substantial likelihood that a reasonable Examiner would consider it important in deciding whether to allow the application to issue

In re Reissue Application of Glasson, U.S. Pat. No. 6,290,600

as a patent and, in compliance with this duty, there is attached an information disclosure statement, in accordance with 37 C.F.R. section 1.98.

STATEMENT REGARDING LACK OF DECEPTIVE INTENT
(37 C.F.R. section 1.175(a)(2))

All errors being corrected in this reissue application up to the time of filing of this oath and declaration arose without any deceptive intention on the part of Applicant.

STATEMENT REGARDING CONSENT OF ASSIGNEES
(37 C.F.R. section 1.172(a))

Applicant affirmatively states that she has assigned all rights and title in and to U.S. Patent No. 6,290,600 to Novomatic AG.

STATEMENT OF INOPERATIVENESS OR INVALIDITY OF ORIGINAL PATENT

Applicant believes the original patent to be partly inoperative because of error without any deceptive intent on the part of Applicant as required by 37 C.F.R. section 1.175(a)(5). Applicant believes that the claims of the original patent more or less than she had a right to claim in the patent.

Specifically, Applicant believes that she is entitled to claim the invention at least as broad as having the steps of:

- (a) displaying a plurality of reels;
- (b) displaying a plurality of symbols on said reels;
- (c) spinning the reels, thereby causing the symbols to spin;
- (d) detecting a triggering event associated with at least one of said symbols;
- (e) providing at least one destination on one of said reels;

In re Reissue Application of Glasson, U.S. Pat. No. 6,290,600

(f) displaying at least one of the symbols traveling toward the destination to indicate the triggering event to a player; and

(g) providing to the player an award associated with said triggering event.

To correct this error, Applicant has amended the claims by adding new claims directed to the correct scope of the invention.

Applicant submits that the foregoing error render the patent defective and, consequently, the patent is inoperative under 35 U.S.C. section 251 because the issued patent claims less than she had a right to claim. Thus, Applicant respectfully submits that a reissue is warranted under 35 U.S.C. section 251 to correct the errors.

In re Reissue Application of Glasson, U.S. Pat. No.6,290,600
